

QHSE Policy Dutch Offshore Contractors

Dutch Offshore Contractors is a leading international contractor specialising in Heavy Transport Solutions over sea and Project Logistics Services with a direct-to-sea-terminal in Vlissingen.

We work closely with our clients to create innovative, sustainable solutions and safe working conditions.

A high standard of Quality, Health, Safety and Environment (QHSE) is vital to our success. The D.O.C. Management System provides the framework for managing the company's activities, risks and opportunities associated with our business.

As such QHSE is embedded in the D.O.C. Management System and an integral part of our working philosophy.

By maintaining a high level of QHSE we aim to meet our client's expectations and take into account our stakeholders' needs. We commit ourselves to create a safe and healthy working environment in which we work. Only by working together we can reach our ultimate goal of eliminating all personall injuries and guarding the environment.

Maintaining and improving QHSE is the responsibility of every employee. This is supported by training programmes and sharing knowledge throughout the company.

D.O.C. complies with all standards & legislation. And D.O.C. requires its business partners, subcontractors and suppliers to adhere to the standards & legislation aswell.

Performance is monitored by management at regular intervals and by means of inspections, audits and evaluations. We learn from experiences, both within the company and in the industry as a whole, set new targets and objectives and follow a process of continuous improvement.

Vlissingen, 1 october 2017

Dave Hangoor

Managing Director
